Dear Parents/Carers

## **Introduction to Seesaw**

We are now using Seesaw as another means of communicating learning and connecting with our students. We will still communicate with parents via e-mail and phone calls and will continue to develop home learning packs as required.

Parents will be sent an invitation to join their child's class on Seesaw. This will enable parents/carers to view photos of their child engaging in learning at school. Parents will also be sent a student code which will enable them to access learning activities at home and at school. Please be aware that the two codes are different. Parents/carers will also be sent an information booklet to support them in using Seesaw.

Teachers are currently in the process of adding activities to Seesaw. These will include interactive activities as well as pre-recorded activities. If you have any queries please don't hesitate to contact your class teacher.
